

IMPACT MATHEMATICS TECHNOLOGY SUPPORT

To access information about Impact Mathematics, go to the following website and follow the included steps:

www.glencoe.com

- Michigan
- Student/Parent
- Mathematics
- Enter
- IMPACT Mathematics
- Course 1 (6th grade), Course 2 (7th grade), or Course 3 (8th grade), ©2003

At this point students can watch BrainPOPS or try quizzes and tests. If a student wants to see the textbook online, choose Online Student Edition and put in an Access Code as follows:

- 6th grade text: F01B87006B
- 7th grade text: B1FE925663
- 8th grade text: FCD244DD7B
-

Click on “contents” and choose a chapter.

For more detailed information, choose the 2009 copyright. There are several options with this site. Some highlights are:

- Personal Tutor
- Extra Examples
- Math in Motion
- Online Calculator
- Students Workbooks

There is an issue with using the 2009 copyright, and that is, some of the information is in a different order than our 2003 edition. If you find this to be the case, open the student edition of the 2009 copyright and look for the **topic** you are studying instead of the chapter number. If the topic is not shown, look in another grade level.
